

# Course Craft is going to open July 7th to July 14th

**Course Craft** is a comprehensive training for those who want to transform their knowledge into an online course business or just want to create an extra side income for themselves through selling info-products.

Created by Shane from **ThriveThemes** as a premium course it is one of the best trainings that I have ever taken. It is only open for enrollment for a short time so don't wait to sign up.

It contains the essential skills and knowledge and is all that you would need to be able to create a course that you can create an extra side income. It is organized very well and is a great resource.

It has skill builders, case studies, step by step guides and great videos and examples.

**Sign up for Course Craft** while the cart is still open. It has recently been updated and the cart will close on Wednesday July 14, 2021.
