

# Mid summer Changes

It's now midsummer. Lots of changes will be coming for WordPress with the release of the next version due out very soon. **WordPress 5.8** is slated for **release on July 20, 2021**.

So I am going thru all of the sites and making sure that all plugins and updates are done and ready for the new version that will be coming.

[This article](#) has some of the best information about what's coming in the release.
