

# Wanting to improve writing 2023

For 2023 I want to improve my writing and copywriting skills. In the past I have taken a couple of writing courses but I know that I have forgotten what was taught in those courses. I am in search of some more updated training since the world has changed and things are different now.

I started with purchasing a couple of e-books for my Kindle so that I can get a sense of authors style before I dig deeper.
